Racing is full of surprises. Your wheel alignment does not have to be one of them. Take control. Choose the SetupWizzard.

SetupWizzard is the innovative vehicle measuring tool developed by motorsports specialist CP autosport (a CP Tech brand). With the SetupWizzard suspension measurement and adjustment are elevated to a whole new level! Time is a key factor, not only on track but in every aspect of motorsports. The SetupWizzard delivers results in just minutes.

ACCURATE. QUICK. RELIABLE. – it's time to finally cut that cord!

The innovative wheel alignment system SetupWizzard from CP Tech ensures perfect suspension measurement of toe, camber, corner weights and ride height.

The system's outstanding advantages:

- Saves valuable time between practice sessions on a race weekend
- Quick and easy assembly of measurement system
- Modular design according to customer demands
- Allows for decisive last-minute setup changes
- Extraordinarily high measurement accuracy
- Suspension components easily accessible

Prices starting at 5,880 EUR
