- ❑ VAG cars with Sequential gear box
- ❑ VAG cars with DSG gear box

TN_VAG_09/ 2018

/ SSp Monitor tool

Dear customers

We inform you that we have put at your disposal a new tool to diagnose and firmware update the following modules:

  – Fuse box module
  – Steering wheel module
  – Fuel Level Display module

With this tool you will be able to check functionalities and firmware level when needed.

2018 Updates scheduled on the TCR cars:

Audi RS3 LMS TCR: No update scheduled
CUPRA TCR: No update scheduled
VW Golf GTI TCR: Cars that have installed "MY18 kit" have to update the Steering Wheel Module to manage the new front headlights & blinkers

The "**SSP MONITOR TOOL**" is available in the "Online Catalogue" by purchasing the *reference: 5F6051275*

Tool contains: Connection cable
                 SSp Monitor Software
                 Installation and use instructions
                 All current firmware
