

TECHNCIAL NOTE no.: 54.1	
Product:	High-pressure fuel pump reliability
Part number:	n/a
To:	Audi RS3 LMS Gen2 and Cupra Leon Competicion
Date:	11/04/2024

Dear customer,

A new MARELLI FW & SW 2024 has been released. We have also included improvements in the high-pressure fuel pump management.

Application to models:

- Audi RS3 LMS TCR Gen2
- CUPRA Leon Competición

It is highly recommended to replace the used high-pressure fuel pump for a brand new one while the new SW above indicated are applied, avoiding possible failures in parts that have already been used with the previous SW.

Valid part number for the application: **06Q127025S** and **06Q127025AA**

New “**pRail**” **target** has changed to 350 bar (before 200 bar)
